

Dataset Description for:

Brambilla, Marco; Javadian Sabet, Alireza, 2020, "Social Media Data about the Big Four Fashion Weeks - Fall-Winter 2018", <https://doi.org/10.7910/DVN/8BNXES>, Harvard Dataverse.

The dataset that we provide is composed of two Comma-Separated Values (CSV) files:

Posts and User Profiles authoring the posts on the social media platform named Instagram (www.instagram.com) covering the **Big Four Fashion Weeks, for the Fall-Winter seasons 2018**.

The provided dataset comprises **905,726** posts and **171,078** correspondent unique user profiles.

Details on their attributes are provided in the following lists:

➤ **Posts Dataset.** Columns and Descriptions:

- **Post's PK:** ID of the post.
- **User's PK:** Anonymized ID of the post author.
- **Likes Count:** Total number of likes.
